How to Install "Tune In Radio" on an iPhone or iPad to get Radio Ananda

Step 1
On your Home Screen click on the "App Store" icon.
The icon looks like this:

Step 2
When you get to the App Store, type "tunein radio" in the Search Box.
When the Tune In app comes up, in the upper right there will be an
button that says "Get". When you click "Get" that button will change to say
"Install". Click "Install"

Step 3
Now the Tune In app button will appear on the last page of your
desktop.
Click that icon. It looks like this:

Step 4
The first time you go to Tuneln Radio you will see this screen.
Type in Radio Ananda in the search window at the top.

Step 5
The next screen should look like this, with "Radio Ananda" at the top.
Click on "Radio Ananda"

Step 6
This is the final step.
From here you can just hit "Play" and
Radio Ananda will play.
If you click on the "Follow"
button, that button will change to
"Following" and when you come back
to Tune In Radio and click on "Profile"
below the bottom of the screen, Radio
Ananda will be in a list of stations
you choose to "Follow".

Step 7
This is the final screen you will see when
you click the "Play" button.
So here you can Play, Pause, adjust
Volume, etc.

p.s. The Tune In Radio app is free, but
there will be little ads on your screen.
If you upgrade to the $9.99 "Pro"
version there will be no ads.
